9. [~pxiong] since you're in this code wanted to flag this: {code} hive> create table test (`x,y` int); FAILED: Execution Error, return code 1 from
org.apache.hadoop.hive ql.exec.DDLTask. java.lang.RuntimeException: MetaException(message:org.apache.hadoop.hive.serde2.SerdeException
org.apache.hadoop.hive.serde2.lazy.LazySimpleSerDe: columns has 2 elements while columns.types has 1 elements!) {code} Would a fix to this be related? Any
chance to bundle them up?
10. [~cartershanklin], could u try the patch attached and see if it is reproducible? Thanks.
11. [~pxiong] same problem {code} hive> create table test (`x,y` int); FAILED: Execution Error, return code 1 from org.apache.hadoop.hive ql.exec.DDLTask.

12. [~pxiong] Seems like golden file updates is still needed for some q files.
13. Yes, it is right now blocked by HIVE-15467. ccing [~hagleitn]
14. pushed to master. Thanks [~ashutoshc] for the review. I will file further golden file changes under this jira. Thanks.
15. I noticed that a couple of trailing space/tabs are introduced in the patch. Could we get it removed, maybe via a separate JIRA? Thanks.
16. [~pxiong] this seems to have broken many tests under HiveQA. Can you please fix or revert?
17. [~sershe], i am fixing it now.
