1. **summary:** z-index for input-suggest lower than navbar z-index
description: The z-index of the input-suggest-layer is lower than the z-index of the navbar. Therefore it is not rendered correctly. The z-index of the input-suggest-layer needs to be increased. Please keep in mind, that input-suggest should be usable in popups and other "z-indexed"-controls as well.
label: code-design
2. **summary:** z-index for input-suggest lower than navbar z-index

jira_issues_comments:

1. **body:** Workaround: include a custom CSS behind the bootstrap.css {code} .tt-menu { z-index: 1060; }
{code}
label: code-design
2. **SUCCESS:** Integrated in Jenkins build Tobago Trunk #823 (See [https://builds.apache.org/job/Tobago%20Trunk/823/]) TOBAGO-1724: z-index for input-suggest lower than navbar z-index (lofwyr: [http://svn.apache.org/viewvc/?view=rev&rev=1788125]) * (edit) tobago-trunk/tobago-core/src/main/resources/scss/_tobago.scss
