

Item 317

**git\_comments:**

**git\_commits:**

1. **summary:** Fix typos in release wizard (#1539)  
**message:** Fix typos in release wizard (#1539)

**github\_issues:**

**github\_issues\_comments:**

**github\_pulls:**

1. **title:** Fix typos in release wizard  
**body:**

**github\_pulls\_comments:**

**github\_pulls\_reviews:**

1. Do you remember why this change is needed?
2. Fair enough to offer that choice, although you'll bypass the auto signature validation that email clients provide...
3. Because you already do `git add` on line 1498.
