1. **summary:** BigQueryIO\$StreamingWriteFn uses inefficient keySet iterator  
**description:** [FindBugs WMI\_WRONG\_MAP\_ITERATOR][https://github.com/apache/incubator-beam/blob/58a029a06aea1030279e5da8f9fa3114f456c1db/sdks/java/build-tools/src/main/resources/beam/findbugs-filter.xml#L124]: Inefficient use of keySet iterator instead of entrySet iterator Applies to: [BigQueryIO\$StreamingWriteFn.finishBundle][https://github.com/apache/incubator-beam/blob/58a029a06aea1030279e5da8f9fa3114f456c1db/sdks/java/core/src/main/java/org/apache/beam/sdk/io/BigQueryIO.java#L2080]. This can be made more efficient by using the entrySet iterator. This is a good starter bug. When fixing, please remove the corresponding entries from [findbugs-filter.xml][https://github.com/apache/incubator-beam/blob/master/sdks/java/build-tools/src/main/resources/beam/findbugs-filter.xml] and verify the build passes.

**jira\_issues\_comments:**

1. GitHub user lucasallan opened a pull request: https://github.com/apache/incubator-beam/pull/587 BEAM-405 - Fixes inefficient use of keySet iterator instead of entrySet iterator `BiggQueryIO\$StreamingWriteFn.finishBundle`: Fixes inefficient use of keySet iterator instead of entrySet iterator. More info: https://issues.apache.org/jira/browse/BEAM-405 You can merge this pull request into a Git repository by running: \$ git pull https://github.com/lucasallan/incubator-beam beam-405 Alternatively you can review and apply these changes as the patch at: https://github.com/apache/incubator-beam/pull/587.patch To close this pull request, make a commit to your master/trunk branch with (at least) the following in the commit message: This closes #587 ---- commit 3a4b2d95a698c776748dd771b816fa1a6f8ad6da Author: Lucas Amorim <lucasamorim@lucass-macbook-pro.local> Date: 2016-07-03T22:47:15Z [BEAM-405] Fixes inefficient use of keySet iterator instead of entrySet iterator.
