1. **title:** [CARBONDATA-1865] Remove unnecessary condition to check first pass dataload
body: Be sure to do all of the following checklist to help us incorporate your contribution quickly and easily: - [x] Any interfaces changed? (N/A) - [x] Any backward compatibility impacted? (N/A) - [x] Document update required? (N/A) - [x] Testing done Please provide details on - Whether new unit test cases have been added or why no new tests are required? - How it is tested? Please attach test report. - Is it a performance related change? Please attach the performance test report. - Any additional information to help reviewers in testing this change. - [x] For large changes, please consider breaking it into sub-tasks under an umbrella JIRA. (N/A)

github_pulls_comments:

1. Build Success with Spark 2.2.0, Please check CI
<http://88.99.58.216:8080/job/ApacheCarbonPRBuilder/496/>
2. Build Failed with Spark 2.1.0, Please check CI
<http://136.243.101.176:8080/job/ApacheCarbonPRBuilder1/1759/>
3. retest this please
4. Build Success with Spark 2.2.0, Please check CI
<http://88.99.58.216:8080/job/ApacheCarbonPRBuilder/501/>
5. Build Success with Spark 2.1.0, Please check CI
<http://136.243.101.176:8080/job/ApacheCarbonPRBuilder1/1764/>
6. SDV Build Fail , Please check CI <http://144.76.159.231:8080/job/ApacheSDVTests/2142/>
7. retest sdv please
8. SDV Build Success , Please check CI <http://144.76.159.231:8080/job/ApacheSDVTests/2213/>
9. Build Failed with Spark 2.2.0, Please check CI
<http://88.99.58.216:8080/job/ApacheCarbonPRBuilder/669/>
10. Build Failed with Spark 2.1.0, Please check CI
<http://136.243.101.176:8080/job/ApacheCarbonPRBuilder1/1898/>
11. Build Success with Spark 2.1.0, Please check CI
<http://136.243.101.176:8080/job/ApacheCarbonPRBuilder1/1901/>
12. Build Success with Spark 2.2.0, Please check CI
<http://88.99.58.216:8080/job/ApacheCarbonPRBuilder/672/>
13. SDV Build Success , Please check CI <http://144.76.159.231:8080/job/ApacheSDVTests/2235/>
14. SDV Build Success , Please check CI <http://144.76.159.231:8080/job/ApacheSDVTests/2239/>
15. LGTM

github_pulls_reviews:

1. This if condition can be remove as the high_cardinality check has been removed. @manishgupta88 Please suggest
