

Item 221

git_comments:

1. * * Getter of preAllocSize has been added for testing

git_commits:

1. **summary:** ZOOKEEPER-3027: Accidentally removed public API of FileTxnLog.setPreallocSize()
message: ZOOKEEPER-3027: Accidentally removed public API of FileTxnLog.setPreallocSize() In my latest commit regarding TxnLogToolkit there's a refactor to outsource file padding logic from FileTxnLog to a separate class:
<https://github.com/apache/zookeeper/commit/126fb0f22d701cad58bf3123bf7d8f2219e60387#diff-89717124564925d61d29dd817bcdd915L147> Unfortunately public static method setPreallocSize(int) has also been moved to the new class, but it's being actively used by hadoop-common project too:
<https://github.com/apache/hadoop/blob/trunk/hadoop-common-project/hadoop-common/src/test/java/org/apache/hadoop/ha/ClientBaseWithFixes.java#L384> I'd like to submit a patch to revert the deleted method which is going to call the new one, but will keep backward compatibility with Hadoop. Author: Andor Molnar <andor@cloudera.com> Reviewers: phunt@apache.org Closes #509 from anmolnar/ZOOKEEPER-3027 Change-Id: I7333b5e24c2a78d10a5c5a74c181633050bd225d (cherry picked from commit 5c96887643b2465caabbfd4763c7ebb3cd1aa024) Signed-off-by: Patrick Hunt <phunt@apache.org>

github_pulls_comments:

1. +1, good catch. I committed this to all three active branches - please take a look at 3.4 branch commit as I did need to resolve a conflict. (seemed minor and tests are passing)
2. @phunt all commits lgtn +1 thanks.
