

Item 190

git_comments:

1. make sure to clean up even in case of failures
2. make sure we delete the file at the end
3. make sure to run regular cleanup as well
4. make sure we delete the file at the end
5. make sure to run regular cleanup as well
6. make sure to run regular cleanup as well
7. make sure to stop Kafka and ZooKeeper at the end

git_commits:

1. **summary:** [hotfix] Make end-to-end test scripts more robust
message: [hotfix] Make end-to-end test scripts more robust This uses traps to ensure that we properly do cleanups, remove config values and shutdown things.
