jira_issues_comments:

1. Support pristine_host_hdr option per regex_remap
2. **body:** From [~zwoop]: Let's add a generic interface to allow all overridable configs instead? Like how we do it in header_rewrite.

 13. Why mark this for back port to 5.0? It's already committed, please don't mark things for back port without contacting the RM for that version (and 5.0 is long gone, already released).
