

1. **summary:** Remove misleading unsupported features mention for Python streaming (#12140)
message: Remove misleading unsupported features mention for Python streaming (#12140)

github_issues_comments:

1. title: Remove misleading/unsupported features mention for Python streaming
body: This was pointed out by a user. ----- Thank you for your contribution! Follow this checklist to help us incorporate your contribution quickly and easily: - [] **[**Choose reviewer(s)**]**(<https://beam.apache.org/contribute/#make-your-change>) and mention them in a comment ('R: @username'). - [] Format the pull request title like '[BEAM-XXX] Fixes bug in ApproximateQuantiles', where you replace `BEAM-XXX` with the appropriate JIRA issue, if applicable. This will automatically link the pull request to the issue. - [] Update `CHANGES.md` with noteworthy changes. - [] If this contribution is large, please file an Apache [Individual Contributor License Agreement](<https://www.apache.org/licenses/icla.pdf>). See the [Contributor Guide](<https://beam.apache.org/contribute>) for more tips on [how to make review process smoother](<https://beam.apache.org/contribute/#make-reviewers-job-easier>). github_pulls_comments:

github_pulls_reviews:

1. I believe handling of late data is also supported now. @angoenka / @y1chi could you confirm?
2. Yes, late data is also supported.
3. Thanks, I removed the entire unsupported features section.
4. The only real remaining item, "User-defined custom merging `WindowFn` (with fnapi)" is specific to portability, will add a pointer to the portable runner support table instead.
