- 1. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 2. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 3. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 4. summary: ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 description: Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 5. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 6. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 7. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.

label: code-design

- 8. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 9. summary: ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 description: Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking

the loopback interface for free ports.

- 10. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 11. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.
- 12. **summary:** ServerSocketUtil.getPort() should use loopback address, not 0.0.0.0 **description:** Using 0.0.0.0 to check for a free port will succeed even if there's something bound to that same port on the loopback interface. Since this function is used primarily in testing, it should be checking the loopback interface for free ports.

jira_issues_comments:

1. Attaching patch to have ServerSocketUtil.getPort() bind to loopback instead of 0.0.0.0.

- 9. Thanks for the patch [~ebadger] and thanks for the review [~ahussein]! +1 this looks good to me. We've been running with this change internally for a long time. I will commit later today.
- 10. I have committed this to trunk, branch-3.3, branch-3.2, and branch-3.1.
