1. **title:** ZEPPELIN-155 Handle port number 0
   body: issue described https://issues.apache.org/jira/browse/ZEPPELIN-155. Allow websocket bind to
   port 0

github_pulls_comments:

1. Ready to merge.
2. Merging if there's no more discussions.
3. **body:** Hi @Leemoonsoo , Patch works perfect ! thanks. Minor comment : 1. the logs prints out 0, when
   we set websocket to 0 instead of actual port 15/07/06 18:19:45 INFO socket.NotebookServer: Create
   zeppelin websocket on 0.0.0.0:0 2. When we start zeppelin using zeppelin-daemon.sh, would it make
   sense to print out "http://host:port" that the browser should connect to ? Thanks, Ashwin
   label: code-design
4. @ashwinshankar77 Thanks for the feedback. I pushed a commit to print port number correctly. To make
   zeppelin-daemon.sh print address, it'll need more work. it should aware system assigned port and ssl
   configuration. Do you mind creating a separate issue for it?
5. @Leemoonsoo Thanks ! Patch looks good to me. I created separate jira for printing address :
   https://issues.apache.org/jira/browse/ZEPPELIN-159

github_pulls_reviews:

jira_issues:

1. **summary:** Correctly handle port number 0
   description: Port number 0 usually means selecting a system provided port number. Currently,
   websocket's default port binding is always Zeppelin server port + 1. But it make sense to use port 0 for
   websocket when Zeppelin server port is defined as 0.

jira_issues_comments:

1. GitHub user Leemoonsoo opened a pull request: https://github.com/apache/incubator-zeppelin/pull/144
   ZEPPELIN-155 Handle port number 0 issue described https://issues.apache.org/jira/browse/ZEPPELIN-
   155. Allow websocket bind to port 0 You can merge this pull request into a Git repository by running: $
   git pull https://github.com/Leemoonsoo/incubator-zeppelin ZEPPELIN-155 Alternatively you can review
   and apply these changes as the patch at: https://github.com/apache/incubator-zeppelin/pull/144.patch To
   close this pull request, make a commit to your master/trunk branch with (at least) the following in the
   commit message: This closes #144 ---- commit 23ff364d5f44b15159be093f93d8acdca132c163 Author:
   Lee moon soo <moon@apache.org> Date: 2015-07-04T19:40:27Z allow websocket bind to port 0 ----
