1. **title:** chore: Show datasets when search input is empty
   body: ### SUMMARY Shows data in the table when search input is empty. Related to [this comment] (https://github.com/apache/superset/pull/12390#issuecomment-757353286). ### BEFORE/AFTER SCREENSHOTS OR ANIMATED GIF Before: ![BEFOREAge-distribution-of-respondents (1)](https://user-images.githubusercontent.com/60598000/104110091-9322ae00-52d4-11eb-97b3-fe19e3059022.gif) After: https://user-images.githubusercontent.com/60598000/104195754-50bbb700-5423-11eb-861e-f6ba43ea34a5.mp4 ### TEST PLAN 1. Open a chart 2. Change the dataset 3. Search for a dataset 4. Delete the search string from the input 5. Make sure the initial data is fetched ### ADDITIONAL INFORMATION <!--- Check any relevant boxes with "x" --> <!--- HINT: Include "Fixes #nnn" if you are fixing an existing issue --> - [ ] Has associated issue: - [ ] Changes UI - [ ] Requires DB Migration. - [ ] Confirm DB Migration upgrade and downgrade tested. - [ ] Introduces new feature or API - [ ] Removes existing feature or API

3. thanks for the PR! the new behavior is a bit jumpy, can we set fixed height to the modal, i assume we already have pagination, right? ![ezgif-6-0afc06f6b208](https://user-images.githubusercontent.com/67837651/104128156-c556fe80-531a-11eb-90c0-17e5c98f6170.gif)
4. No other issues found than Junlin. Tested.
5. @junlincc Height has been fixed. As for the pagination, does not look like it's there. This retrieves max 20 datasets and shows them. AFTER video updated to reflect the change.
6. looks like CI is stuck again??
7. 3 pages/72 queued actions, pretty normal 😄
8. @geido tested again, LGTM! i dont have enough dataset in local, so just want to make sure the scroll bar is enough to take care of a long page of dataset.
9. @geido also, please open another issue and PR to fix the warning sign and search bar as follow up. 🙏
10. @geido i think this issue is introduced by my recent PR fix(explore): fixed table header in chrome. can we have 1.warning msg 2.search bar 3.header all sticky to the top only scroll bar on the table body? https://user-images.githubusercontent.com/67837651/104417420-

github_pulls_reviews:

1. isn't better to send height without 'px'?
2. I think it is preferable to avoid specifying px just in case another unit needs to be used, see a percentage, for instance.
