Item 135
git_comments:

1. * * Close all open streams, abandoning all of the leases and files being * created. * @param abort whether streams should be gracefully closed
2. can't mock finals
3. trick out deleteOnExit

1. **summary:** Update namenode -format documentation and add -nonInteractive and -force
   description: documentation changes related to HDFS-3094

jira_issues_comments:

1. **body:** -1 overall. Here are the results of testing the latest attachment http://issues.apache.org/jira/secure/attachment/12518950/HADOOP-8185.patch against trunk revision . +1 @author. The patch does not contain any @author tags. -1 tests included. The patch doesn't appear to include any new or modified tests. Please justify why no new tests are needed for this patch. Also please list what manual steps were performed to verify this patch. +1 javadoc. The javadoc tool did not generate any warning messages. +1 javac. The applied patch does not increase the total number of javac compiler warnings. +1 eclipse:eclipse. The patch built with eclipse:eclipse. +1 findbugs. The patch does not introduce any new Findbugs (version 1.3.9) warnings. +1 release audit. The applied patch does not increase the total number of release audit warnings. -1 core tests. The patch failed these unit tests: org.apache.hadoop.fs.viewfs.TestViewFsTrash +1 contrib tests. The patch passed contrib unit tests. Test results: https://builds.apache.org/job/PreCommit-HADOOP-Build/730//testReport/ Console output: https://builds.apache.org/job/PreCommit-HADOOP-Build/730//console This message is automatically generated.
   label: code-design
2. no tests included as this is just a documentation patch. The test failure is un related to this patch.
3. Looks pretty good to me, Arpit. Thanks for doing this. A few little typo corrections: # "<td>Formats the namenode. It starts the namenode, formats it and then shut it down.
" - s/shut/shuts/g # "-nonInterActive: formats the namenode but will fail if directories exist on local filesyste.
" - s/filesyste/filesystem/g
4. Thanks for the review Aaron. Made the appropriate changes.
5. **body:** Sorry Arpit, I should have mentioned these earlier. Other changes that I'd like to see: # I think you have a typo in the "-nonInteractive" option. "Interactive" is one word, and the "a" should not be capitalized. # It's not obvious from the description of "-nonInteractive" how it's different from regular "-format". We should say explicitly something like "with no options given, prompt the user if there is a pre-existing name dir in the local file system." Likewise, "-nonInteractive" should say explicitly "do not prompt the user, but fail to format if directories already exist."

11. Aaron HDFS-3094 is committed to trunk, when you get some time if you can review and commit the doc changes if it looks good.

12. Thanks a lot for the reminder, Arpit. +1, the latest patch looks good to me. I'll commit this momentarily.

13. I've just committed this to branch-2 and trunk. Thanks a lot for the contribution, Arpit.

14. Integrated in Hadoop-Common-trunk-Commit #2173 (See [https://builds.apache.org/job/Hadoop-Common-trunk-Commit/2173/]) HADOOP-8185. Update namenode -format documentation and add -nonInteractive and -force. Contributed by Arpit Gupta.
