1. **summary:** website - Quarkus Extensions List Table should be similar to Camel components table
   description: See this table https://camel.apache.org/components/latest/ And then make this table the same columns and data similar https://camel.apache.org/camel-quarkus/latest/list-of-camel-quarkus-extensions.html
2. **summary:** website - Quarkus Extensions List Table should be similar to Camel components table
   description: See this table https://camel.apache.org/components/latest/ And then make this table the same columns and data similar https://camel.apache.org/camel-quarkus/latest/list-of-camel-quarkus-extensions.html
   label: requirement
3. **summary:** website - Quarkus Extensions List Table should be similar to Camel components table
   description: See this table https://camel.apache.org/components/latest/ And then make this table the same columns and data similar https://camel.apache.org/camel-quarkus/latest/list-of-camel-quarkus-extensions.html
4. **summary:** website - Quarkus Extensions List Table should be similar to Camel components table
   description: See this table https://camel.apache.org/components/latest/ And then make this table the same columns and data similar https://camel.apache.org/camel-quarkus/latest/list-of-camel-quarkus-extensions.html

jira_issues_comments:

1. The columns are the same in both the tables : Component, Artifact, Support Level, Since, Description. What exactly do we want to change here?
2. **body:** This has been implemented, the JIRA tis resolved
   label: requirement
