Contained in branches: master Contained in no tag

10. Author: Jessica Wang <jessica.wang@citrix.com>#mailto:jessica.wang@citrix.com Date: 43 seconds ago (Mon Nov 26 13:10:44 2012) Commit hash: b94981343813a8698a9e4818d70e444873f684d3 CLOUDSTACK-537: cloudstack UI - Advanced SG-Enabled zone - Infrastructure menu - zone detail - physical network - guest - network tab - crate network dailog - scope dropdown - list only Accounts option if it's for an Advanced SG-enabled zone. Contained in branches: master Contained in no tag

11. Author: Jessica Wang <jessica.wang@citrix.com>#mailto:jessica.wang@citrix.com Date: 37 seconds ago (Mon Nov 26 13:12:41 2012) Commit hash: 1fb80fc6ce70fd11f956c0cfedc337bc8bff87a8 CLOUDSTACK-537: cloudstack UI - Advanced SG-Enabled zone - Network menu - guest network section - (1) hide create network button if there is no Advacned SG-disabled zones. (2) create network dialog - zone dropdown - populate only Advacned SG-disabled zones. Contained in branches: master Contained in no tag

12. Author: Jessica Wang <jessica.wang@citrix.com>#mailto:jessica.wang@citrix.com Date: 50 seconds ago (Tue Nov 27 15:09:55 2012) Commit hash: 46cec7342ad446e3e6d3e6fd97b0b32d9a2c529f CLOUDSTACK-537: cloudstack UI - Advanced SG-Enabled zone - Instance menu - instance detailView - show SecurityGroups tab for Advanced SG-Enabled zone. Contained in branches: master Contained in no tag

13. Author: Jessica Wang <jessica.wang@citrix.com>#mailto:jessica.wang@citrix.com Date: 43 seconds ago (Thu Dec 06 10:43:50 2012) Commit hash: 391e873bd94df1f9bcd8e897910e1d5b9c20f84f CLOUDSTACK-537: cloudstack UI - Advanced SG-enabled zone - zone wizard - cluster dropdown - Make "KVM" the 1st option in dropdown. Contained in branches: master Contained in no tag

14. commit a4c413bc13cae8d6060a4bfd58fb2d6a18bebbc7 Author: Brian Federle <bfederle@gmail.com> Date: Mon Jan 21 14:30:56 2013 -0800 CLOUDSTACK-537: Fix for instance wizard When using SG-enabled advanced zone, fix case where 'add guest network' form shows up in select network step -- adding a guest network via the wizard is not supported in this type of setup.

15. Commit a02c66594f3209409737a7c364ce65884a0f1f83 in branch refs/heads/master from [~jessicawang] [https://git-wip-us.apache.org/repos/asf?p=incubator-cloudstack.git;h=a02c665] CLOUDSTACK-537: cloudstack UI - Infrastructure menu - create network dialog - Advanced sg-enabled zone - (1) account-specific network doesn't work at backend. Therefore, remove "account" option from scope dropdown. (2) zone-wide network: list only sg network offerings.

16. Commit cc24bebcb6c6f3bddcdb7bd26d7f6a7556c16c07 in branch refs/heads/master from [~jessicawang] [https://git-wip-us.apache.org/repos/asf?p=incubator-cloudstack.git;h=cc24beb] CLOUDSTACK-537: cloudstack UI - Advanced sg-enabled zone - VM Wizard - step 5 - select network screen - populate only sg networks (i.e. not show non-sg networks).

17. Commit e56cb26f5c93a22acf1d9326f68d391d19c58614 in branch refs/heads/4.1 from [~jessicawang] [https://git-wip-us.apache.org/repos/asf?p=incubator-cloudstack.git;h=e56cb26] CLOUDSTACK-537: cloudstack UI - Infrastructure menu - create network dialog - Advanced sg-enabled zone - (1) account-specific network doesn't work at backend. Therefore, remove "account" option from scope dropdown. (2) zone-wide network: list only sg network offerings.

18. Commit e9c923aee04abd99c9b4184a972cb8cd90b6d010 in branch refs/heads/4.1 from [~jessicawang] [https://git-wip-us.apache.org/repos/asf?p=incubator-cloudstack.git;h=e9c923a] CLOUDSTACK-537: cloudstack UI - Advanced sg-enabled zone - VM Wizard - step 5 - select network screen - populate only sg networks (i.e. not show non-sg networks).

19. Feature is not checked in so removing this from 41. Angie will be checking this

20. tested the removal - closing
21. Tested ASF 4.1 cloudstack latest build 3/26/13: 1. create advance zone SG disabled, VPC, VPC network, VM deployment successful 2. basic zone creation failed https://issues.apache.org/jira/browse/CLOUDSTACK-1812 3. create advance zone SG enabled failed with error: failed to create a guest network for basic zone. Error: Only account specific isolated network with sourceNat service disabled are allowed in security group enabled zone. However, it created a zone which is disabled, with physical network.
