1. **title:** bash commands were not showing up in its own blocks
   body: A new line must be included before ```bash which allows the following code to be displayed as block, otherwise all the code shows up in a single line making it unreadable.

github_pulls_comments:

1. @deepujain Thanks for take care of. How about add a link to this document under 'install' section of http://zeppelin.incubator.apache.org/docs/index.html ?
2. How do i do that ?
3. You can edit https://github.com/apache/incubator-zeppelin/blob/gh-pages/docs/index.md
