consequential -damages, such as lost profits; - -iii) states that any provisions which differ from this Agreement are offered by -that Contributor alone and not by any other party; and - -iv) states that source code for the Program is available from such Contributor, -and informs licensees how to obtain it in a reasonable manner on or through a -medium customarily used for software exchange. - -When the Program is made available in source code form: - -a) it must be made available under this Agreement; and - -b) a copy of this Agreement must be included with each copy of the Program. - -Contributors may not remove or alter any copyright notices contained within the -Program. - -Each Contributor must identify itself as the originator of its Contribution, if -any, in a manner that reasonably allows subsequent Recipients to identify the -originator of the Contribution. - - -4. COMMERCIAL DISTRIBUTION - -Commercial distributors of software may accept certain responsibilities with -respect to end users, business partners and the like. While this license is -intended to facilitate the commercial use of the Program, the Contributor who -includes the Program in a commercial product offering should do so in a manner -which does not create potential liability for other Contributors. Therefore, if -a Contributor includes the Program in a commercial product offering, such -Contributor ("Commercial Contributor") hereby agrees to defend and indemnify -every other Contributor ("Indemnified Contributor") against any losses, damages -and costs (collectively "Losses") arising from claims, lawsuits and other legal -actions brought by a third party against the Indemnified Contributor to the -extent caused by the acts or omissions of such Commercial Contributor in -connection with its distribution of the Program in a commercial product -offering. The obligations in this section do not apply to any claims or Losses -relating to any actual or alleged intellectual property infringement. In order -to qualify, an Indemnified Contributor must: a) promptly notify the Commercial -Contributor in writing of such claim, and b) allow the Commercial Contributor to -control, and cooperate with the Commercial Contributor in, the defense and any -related settlement negotiations. The Indemnified Contributor may participate in -any such claim at its own expense. - -For example, a Contributor might include the Program in a commercial product -offering, Product X. That Contributor is then a Commercial Contributor. If that -Commercial Contributor then makes performance claims, or offers warranties -related to Product X, those performance claims and warranties are such -Commercial Contributor's responsibility alone. Under this section, the -Commercial Contributor would have to defend claims against the other -Contributors related to those performance claims and warranties, and if a court -requires any other Contributor to pay any damages as a result, the Commercial -Contributor must pay those damages. - -5. NO WARRANTY - -EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN -"AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR -IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, -NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each -Recipient is solely responsible for determining the appropriateness of using and -distributing the Program and assumes all risks associated with its exercise of -rights under this Agreement, including but not limited to the risks and costs of -program errors, compliance with applicable laws, damage to or loss of data, -programs or equipment, and unavailability or interruption of operations. - -6. DISCLAIMER OF LIABILITY - -EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY -CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, -SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST -PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, -STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY -OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS -GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. - -7. GENERAL - -If any provision of this Agreement is invalid or unenforceable under applicable -law, it shall not affect the validity or enforceability of the remainder of the -terms of this Agreement, and without further action by the parties hereto, such -provision shall be reformed to the minimum extent necessary to make such -provision valid and enforceable. - -If Recipient institutes patent litigation against a Contributor with respect to -a patent applicable to software (including a cross-claim or counterclaim in a -lawsuit), then any patent licenses granted by that Contributor to such Recipient -under this Agreement shall terminate as of the date such litigation is filed. In -addition, if Recipient institutes patent litigation against any entity -(including a cross-claim or counterclaim in a lawsuit) alleging that the Program -itself (excluding combinations of the Program with other software or hardware) -infringes such Recipient's patent(s), then such Recipient's rights granted under -Section 2(b) shall terminate as of the date such litigation is filed. - -All Recipient's rights under this Agreement shall terminate if it fails to -comply with any of the material terms or conditions of this Agreement and does -not cure such failure in a reasonable period of time after becoming aware of -such noncompliance. If all Recipient's rights under this Agreement terminate, -Recipient agrees to cease use and distribution of the Program as soon as -reasonably practicable. However, Recipient's obligations under this Agreement -and any licenses granted by Recipient relating to the Program shall continue and -survive. - -Everyone is permitted to copy and distribute copies of this Agreement, but in -order to avoid inconsistency the Agreement is copyrighted and may only be -modified in the following manner. The Agreement Steward reserves the right to -publish new versions (including revisions) of this Agreement from time to time. -No one other than the Agreement Steward has the right to modify this Agreement. -IBM is the initial Agreement Steward. IBM may assign the responsibility to serve -as the Agreement Steward to a suitable separate entity. Each new version of the -Agreement will be given a distinguishing version number. The Program (including -Contributions) may always be distributed subject to the version of the Agreement -under which it was received. In addition, after a new version of the Agreement -is published, Contributor may elect to distribute the Program (including its -Contributions) under the new version. Except as expressly stated in Sections -2(a) and 2(b) above, Recipient receives no rights or licenses to the -intellectual property of any Contributor under this Agreement, whether -expressly, by implication, estoppel or otherwise. All rights in the Program not -expressly granted under this Agreement are reserved. - -This Agreement is governed by the laws of the State of New York and the -intellectual property laws of the United States of America. No party to this -Agreement will bring a legal action under this Agreement more than one year -after the cause of action arose. Each party waives its rights to a jury trial in -any resulting litigation. diff --git a/junitlib/external/junit-4.12-notice.txt b/junitlib/external/junit-4.12-notice.txt new file mode 100644 index 000000000..952103043 --- /dev/null +++ b/junitlib/external/junit-4.12-notice.txt @@ -0,0 +1,2 @@ +JUnit 4.12 is licensed under EPL-v10. +See https://www.eclipse.org/legal/epl-v10.html. diff --git a/languages/src/META-INF/services/org.netbeans.modules.editor.settings.storage.spi.StorageFilter b/languages/src/META-INF/services/org.netbeans.modules.editor.settings.storage.spi.StorageFilter index b722103a4..17801106e 100644 --- a/languages/src/META-INF/services/org.netbeans.modules.editor.settings.storage.spi.StorageFilter +++ b/languages/src/META-INF/services/org.netbeans.modules.editor.settings.storage.spi.StorageFilter @@ -1,42 +1,18 @@ -# DO NOT ALTER OR REMOVE COPYRIGHT NOTICES OR THIS HEADER. - -# Copyright 2009-2017 Oracle and/or its affiliates. </br>Version 2.0, January 2004
</br> +http://www.apache.org/licenses/ </p> +<p>TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION</p> +<p>1. Definitions.</p> +<p>"License" shall mean the terms and conditions for use, reproduction, and +distribution as defined by Sections 1 through 9 of this document.</p> +<p>"Licensor" shall mean the copyright owner or entity authorized by the +copyright owner that is granting the License.</p> +<p>"Legal Entity" shall mean the union of the acting entity and all other +entities that control, are controlled by, or are under common control with +that entity. For the purposes of this definition, "control" means (i) the +power, direct or indirect, to cause the direction or management of such +entity, whether by contract or otherwise, or (ii) ownership of fifty +percent (50%) or more of the outstanding shares, or (iii) beneficial +ownership of such entity.</p> +<p>"You" (or "Your") shall mean an individual or Legal Entity exercising +permissions granted by this License.</p> +<p>"Source" form shall mean the preferred form for making modifications, +including but not limited to software source code, documentation source, +and configuration files.</p> +<p>"Object" form shall mean any form resulting from mechanical transformation +or translation of a Source form, including but not limited to compiled +object code, generated documentation, and conversions to other media types.</p> +<p>"Work" shall mean the work of authorship, whether in Source or Object form, +made available under the License, as indicated by a copyright notice that +is included in or attached to the work (an example is provided in the +Appendix below).</p> +<p>"Derivative Works" shall mean any work, whether in Source or Object form, +that is based on (or derived from) the Work and for which the editorial +revisions, annotations, elaborations, or other modifications represent, as +a whole, an original work of authorship. For the purposes of this License, +Derivative Works shall not include works that remain separable from, or +merely link (or bind by name) to the interfaces of, the Work and Derivative +Works thereof.</p> +<p>"Contribution" shall mean any work of authorship, including the original +version of the Work and any modifications or additions to that Work or +Derivative Works thereof, that is intentionally submitted to Licensor for +inclusion in the Work by the copyright owner or by an individual or Legal +Entity authorized to submit on behalf of the copyright owner. For the +purposes of this definition, "submitted" means any form of electronic, +verbal, or written communication sent to the Licensor or its +representatives, including but not limited to communication on electronic +mailing lists, source code control systems, and issue tracking systems that +are managed by, or on behalf of, the Licensor for the purpose of discussing +and improving the Work, but excluding communication that is conspicuously +marked or otherwise designated in writing by the copyright owner as "Not a +Contribution."</p> +<p>"Contributor" shall mean Licensor and any individual or Legal Entity on +behalf of whom a Contribution has been received by Licensor and +subsequently incorporated within the Work.</p> +<p>2. Grant of Copyright License. Subject to the +terms and conditions of this License, each Contributor hereby grants to You +a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable +copyright license to reproduce, prepare Derivative Works of, publicly +display, publicly perform, sublicense, and distribute the Work and such +Derivative Works in Source or Object form.</p> +<p>3. Grant of Patent License. Subject to the terms +and conditions of this License, each Contributor hereby grants to You a +perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable +(except as stated in this section) patent license to make, have made, use, +offer to sell, sell, import, and otherwise transfer the Work, where such +license applies only to those patent claims licensable by such Contributor +that are necessarily infringed by their Contribution(s) alone or by +combination of their Contribution(s) with the Work to which such +Contribution(s) was submitted. If You institute patent litigation against +any entity (including a cross-claim or counterclaim in a lawsuit) alleging +that the Work or a Contribution incorporated within the Work constitutes +direct or contributory patent infringement, then any patent licenses +granted to You under this License for that Work shall terminate as of the +date such litigation is filed.</p> +<p>4. Redistribution. You may reproduce and +distribute copies of the Work or Derivative Works thereof in any medium, +with or without modifications, and in Source or Object form, provided that +You meet the following conditions:</p> +<ol style="list-style: lower-latin;"> +
You must give any other recipients of the Work or Derivative Works a +copy of this License; and +
You must cause any modified files to carry prominent notices stating +that You changed the files; and +<li>You must retain, in the Source form of any Derivative Works that You +distribute, all copyright, patent, trademark, and attribution notices from +the Source form of the Work, excluding those notices that do not pertain to +any

part of the Derivative Works; and + +<li>If the Work includes a "NOTICE" text file as part of its distribution, +then any Derivative Works that You distribute must include a readable copy +of the attribution notices contained within such NOTICE file, excluding +those notices that do not pertain to any part of the Derivative Works, in +at least one of the following places: within a NOTICE text file distributed +as part of the Derivative Works; within the Source form or documentation, +if provided along with the Derivative Works; or, within a display generated +by the Derivative Works, if and wherever such third-party notices normally +appear. The contents of the NOTICE file are for informational purposes only +and do not modify the License. You may add Your own attribution notices +within Derivative Works that You distribute, alongside or as an addendum to +the NOTICE text from the Work, provided that such additional attribution +notices cannot be construed as modifying the License. +
 +
 +You may add Your own copyright statement to Your modifications and may +provide additional or different license terms and conditions for use, +reproduction, or distribution of Your modifications, or for any such +Derivative Works as a whole, provided Your use, reproduction, and +distribution of the Work otherwise complies with the conditions stated in +this License. + + + + +<p>5. Submission of Contributions. Unless You +explicitly state otherwise, any Contribution intentionally submitted for +inclusion in the Work by You to the Licensor shall be under the terms and +conditions of this License, without any additional terms or conditions. +Notwithstanding the above, nothing herein shall supersede or modify the +terms of any separate license agreement you may have executed with Licensor +regarding such Contributions.</p> +<p>6. Trademarks. This License does not grant +permission to use the trade names, trademarks, service marks, or product +names of the Licensor, except as required for reasonable and customary use +in describing the origin of the Work and reproducing the content of the +NOTICE file.</p> +<p>7. Disclaimer of Warranty. Unless required by +applicable law or agreed to in writing, Licensor provides the Work (and +each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT +WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, +without limitation, any warranties or conditions of TITLE, +NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You +are solely responsible for determining the appropriateness of using or +redistributing the Work and assume any risks associated with Your exercise +of permissions under this License.</p> +<p>8. Limitation of Liability. In no event and +under no legal theory, whether in tort (including negligence), contract, or +otherwise, unless required by applicable law (such as deliberate and +grossly negligent acts) or agreed to in writing, shall any Contributor be +liable to You for damages, including any direct, indirect, special, +incidental, or consequential damages of any character arising as a result +of this License or out of the use or inability to use the Work (including +but not limited to damages for loss of goodwill, work stoppage, computer +failure or malfunction, or any and all other commercial damages or losses), +even if such Contributor has been advised of the possibility of such +damages.</p> +<p>9. Accepting Warranty or Additional Liability. +While redistributing the Work or Derivative Works thereof, You may choose +to offer, and charge a fee for, acceptance of support, warranty, indemnity, +or other liability obligations and/or rights consistent with this License. +However, in accepting such obligations, You may act only on Your own behalf +and on Your sole responsibility, not on behalf of any other Contributor, +and only if You agree to indemnify, defend, and hold each Contributor +harmless for any liability incurred by, or claims asserted against, such +Contributor by reason of your accepting any such warranty or additional +liability.</p> +<p>END OF TERMS AND CONDITIONS</p> +<h1 id="apply">APPENDIX: How to apply the Apache License to your work¶</h1> +<p>To apply the Apache License to your work, attach the following boilerplate +notice, with the fields enclosed by brackets "[]" replaced with your own +identifying information. (Don't include the brackets!) The text should be +enclosed in the appropriate comment syntax for the file format. We also +recommend that a file or class name and description of purpose be included +on the same "printed page" as the copyright notice for easier +identification within third-party archives.</p> +<div class="codehilite"><pre>Copyright [yyyy] [name of copyright owner] + +Licensed under the Apache License, Version 2.0 (the "License"); +you may not use this file except in compliance with the License. +You may obtain a copy of the License at + + http://www.apache.org/licenses/LICENSE-2.0 + +Unless required by applicable law or agreed to in writing, software +distributed under the License is distributed on an "AS IS" BASIS, +WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. +See the License for the specific language governing permissions and +limitations under the License. +</pre></div></div> </body> </html> diff --git a/usersguide/javahelp/org/netbeans/modules/usersguide/map.xml b/usersguide/javahelp/org/netbeans/modules/usersguide/map.xml index 0fee99807..65323eec7 100755 --- a/usersguide/javahelp/org/netbeans/modules/usersguide/map.xml +++ b/usersguide/javahelp/org/netbeans/modules/usersguide/map.xml @@ -1,4 +1,24 @@ <?xml version='1.0' encoding='utf-8'?> +<!-- + + Licensed to the Apache Software Foundation (ASF) under one + or more contributor license agreements.
